## Objective

Props Assistant and Armorer with professional on-set experience across a full-season television production. Skilled in prop continuity, set operations, and fast-paced filming environments. Seeking union or non union opportunities within the Props Department.

## Selected Production Credits

Hunting Wives Season 2 (Netflix / Lionsgate) — Props Apprentice (All 8 Episodes)

- Assisted Props Department across full season production
- Maintained prop continuity across multiple scenes and shooting days
- Supported first team and background actors with props and scene readiness
- Executed rapid resets including meal resets and set adjustments
- Assisted with set dressing and on-set logistics
- Managed placement of director and producer chairs and equipment
- Worked closely with crew to maintain efficient workflow under tight schedules

Knuckle (Bonfire Legend) — Assistant Armorer (4 Days)

- Assisted lead armorer throughout a week of multiple large gun fights
- Maintained continuity across multiple scenes and shooting days
- Fully controlled set during tandem days
- Controlled all ammunition on and off set
- Cleaned, repaired, and switched restriction plugs in multiple types of weapons
- Worked closely with lead armorer, stunt coordinator, and all assistant directors to maintain safety throughout every scene

## Props & Set Skills

- Prop Continuity & Tracking
- Set Dressing & Scene Resetting
- On-Set Etiquette & Workflow
- First Team & Background Support
- Fast-Paced Problem Solving
- Crew Communication & Coordination

## **Armorer**

- Experience with blank firing and green gas weapon systems
- Ability to maintain multiple types of fire arms
- Organizing and keeping track of all ammunition used
- Keeping set as safe as possible no matter what type of firearm is being used
- Educating actors how to safely and properly handle the firearms
- Large personal collection of firearms available for rent

## **Tools & Capabilities**

- Full proficiency with hand and power tools (drills, saws, drivers, grinders)
- Basic prop fabrication and on-set modifications
- Carpentry and wood construction
- Metal fabrication and welding (MIG, TIG, SMAW)
- Mechanical repair and equipment troubleshooting
- Ability to build, modify, and repair props quickly on set
- CDL transport capability (equipment, props, trailers)
- Strong problem-solving in time-sensitive environments

## **Certifications**

- Class A CDL
- AWS Certified Welder (MIG, TIG, Stick)
  
- ASA Safety Training (A,A2,C19,HP1)
