

Jackson Dumas

Writer, Producer, Film and Television Professional

Associate Producer at Flick Studios (2022 - Present)

I currently serve the clients and partners of Flick Studios to bring the stories of local businesses, organizations, and governments to life through campaign development, creative consulting, brand strategy, and video production coordinating. I've also enjoyed opportunities to grow my skills in videography, editing, and podcast production.

Film and Television (2021 - Present)

With over 4 years of experience in film, television, and commercial production across North Carolina, South Carolina, and Georgia, I've worked to support productions through specialties in location management, scouting, and assistant directing. As an assisting location manager and scout, I work to build and preserve relationships between the community and its local film industry, bringing everyday people and places into the world of television and film. As an assistant director, I collaborate with producers, directors, talent, and department heads to execute creative visions in a timely and efficient manner.
