## EMPLOYMENT HISTORY

### SHRINK TANK // PSYCH BYTES DIRECTOR OF AUDIO & VIDEO 2016-2020

Produced audio and video content for a digital media team best known for analyzing culture and entertainment through the lens of psychology. In my role, I facilitated all technical aspects of podcast production, video production, and post-production. This includes lighting, camera operating, set design, sound mixing/recording, color grading, music scoring, and graphic design. Shrink Tank was the recipient of a Best of Business (BoB) Award from Charlotte Magazine as "Best Local Podcast" in 2019.

### SHUTTERBOOTH EVENT HOST 2011-CURRENT

As event host, our goal is to create a memorable event for each client. We set up and operate photo booths customized for each specific event while assisting guests.

## CREATIVE ENDEAVORS

### FILMS ON TAP FESTIVAL DIRECTOR

Founded in 2014, Films on Tap is a seasonal film festival which pairs independent and locally produced short films with locally brewed craft beverages. This takes place at local breweries and helps support the creative arts community via a wide range of collaborative initiatives.

B E C K

## COVER LETTER

Ever since graduating from Western Carolina University in 2010 with a BFA in Motion Picture & Television Production, my primary focus has been to develop creative content with good people. As we navigate these interesting times, it is very important for me to surround myself with organizations who have similar goals, values, and who foster healthy and authentic workplace cultures. As a filmmaker, editor, and producer, I am very drawn to the work you all do.

In my time serving as Films on Tap's festival director, I've been lucky enough to surround myself with a team of enthusiastic creatives, marketing gurus, and craft beer experts. While scheduling and planning each event since its inception in 2014, I've had the opportunity to build several core skills in the realm of event managing, coordinating, and graphic design.

In tandem with Films on Tap and my live music video series, Light + Song, I was hired as Director of Audio and Video for Shrink Tank. I was tasked with the opportunity to create several video series and podcast productions centered at the intersection of psychology, entertainment, and culture. In this, I found myself thriving in dynamic ways of creating content while maintaining a solid balance of coordinating and working with several different groups of professionals and creatives alike.

If given the opportunity to work alongside your team, I will make every effort to learn, create, and collaborate to the highest of my abilities. Thank you in advance for your time and consideration and I sincerely look forward to hearing more about how we can work together.

Best Regards,

**SEAN BECK**

**LIGHT + SONG**

## WHAT IS LIGHT+SONG?

Light + Song is Charlotte's live session music video series which highlights Carolina musicians in a cinematic fashion. Our goal is to elevate each artist by capturing their authentic performance while integrating it with beautifully-produced videos.

Light + Song's Mission is to help Charlotte become more recognized for the remarkable music hub it already is.

The pandemic has been incredibly arduous on musicians by eliminating critical avenues of revenue, creating constant daily hurdles for these struggling artists.

In an effort to get more eyes and ears on our local talent, we would love to film a live session video of the Avett Brothers as special guests on our channel.

The Avetts walk away with a well-crafted live session video and by hosting it on our platform, we'd collectively increase exposure for past, present, and future artists.

## WHY PARTNER WITH US?

# HOW DOES IT WORK?

In 2019, Light + Song was awarded with the Celebrate Charlotte Arts Initiative Grant by The Knight Foundation.

This funding afforded us the ability to produce 16 live session videos at no cost to musicians.

By adopting this model going forward, it has become our mission to provide a charitable avenue for musicians, taking the stress of money out of the equation.
